

The Procedures Course Europe 2025

A fully immersive cadaveric course focusing on life, limb and sight saving procedures

Designed for clinicians aiming to sharpen their proficiency in critical life- and limb-saving procedures, this intensive course offers hands-on training led by expert faculty from The Alfred Emergency & Trauma Centre, alongside specialists from leading trauma centres across Australia, Europe, and the UK.

Join us to immerse yourself in an enhanced educational experience, featuring un-embalmed cadavers and an optimal cadaver-to-participant ratio, ensuring a focused and confidence-boosting training environment.

Given the course's high demand and limited availability, we encourage you to register now and secure your place.

Procedures will include:

- Surgical airway (cricothyroidotomy)
- Orbital decompression (lateral canthotomy and cantholysis)
- Pleural decompression (finger thoracostomy and pleural drainage)
- Vascular access (MAC line / RIC line / Intraosseous access)
- Temporary trans-venous cardiac pacing
- Pericardial decompression (including resuscitative thoracotomy)
- Retrieval limb amputation
- Escharotomy
- Resuscitative hysterotomy

WHEN AND WHERE:

- Monday 8 & Tuesday 9 September
Berlin, Germany
- Thursday 16 & Friday 17 October 2025
Leuven, Belgium
- Wednesday 22 & Thursday 23 October
Nijmegen, Netherlands
